

GRÉGOIRE CHARLES

Product Manager

Paris, France

I'm a 33 years old product manager with 9 years of professional experience in large scale, hyper growth technology companies. Passionate about solving complex problems, and driving cross-functional teams in dynamic environments.

WORK EXPERIENCE

TALENT.IO

Product Manager | 2017 – Current

talent.io is the simplest way for software engineers to find great jobs in innovative companies.

- Prototyping of all new product features
- Analysis of product features on our testing environment (staging)
- Recommendations of product improvements on both technical and functional aspects
- Tools & languages: Sketch, Ruby / Rails, HTML, CSS, JS

CLUSTREE

Product Manager | Sep, 2015 – Jan, 2017

Clustree is the 1st Software-as-a-Service solution that leverages both internal & external data to provide evidence-based HR actionable insights. I worked on a complete revamp of the product with a team of 8 developers (3 front-end, 3 back-end and 2 data scientists):

- the HR interface (web only) to browse mobility and recruitment opportunities
- the Talent interface (web & mobile) to manage his career evolution within the company
- all the company public websites (clustree.com, blog)

KELEY CONSULTING

Digital Consultant | Aug, 2014 – Apr, 2015

Consulting agency specialized in digital strategy, web optimization and CRM. I worked with several companies and startups to help them refine their product roadmap.

VEGA

Product co-founder | Sep, 2012 – Jun, 2014

2 projects: SoKorpo, a SaaS solution to engage company's employees on Social Media. And Liiist, a social bookmarking application helping internet users organize their research online. I worked on both products from the idea to their launch / commercialization.

SELOGER.COM

Digital Project Manager | Jun, 2009 – Aug, 2012

Websites publisher and consulting agency for internet users and real estate professionals. Within marketing team, I contributed mainly to brand's development on social media and to content marketing production (statistical analysis over 3 millions+ classifieds ads on a monthly basis).

EDUCATION

LE WAGON

Full-Stack Bootcamp - Code | May, 2015 – Jul, 2015

A 9-weeks program to learn, Ruby programming & best practices, website and API development with Rails, JavaScript, HTML & CSS, Git & Github, Heroku.

UNIVERSITY OF CENTRAL FLORIDA

Business Administration | Jan, 2009 – Jun, 2009

Spring semester program

ICN BUSINESS SCHOOL

Master - Business & Management | 2006 – 2009

ICN BUSINESS SCHOOL

DESTC (Bachelor) - Commerce | 2003 – 2006

PROJECTS

CAPTAIN METRO

Product, design & development | Jan, 2017

A Facebook chatbot for the Parisian metro travelers. I wanted to learn how to build a chatbot and few days later the RATP released its public API. That was a perfect opportunity to build something simple and hopefully useful.

PARIS TENNIS CLUB

Product, design & development | Jan, 2017 – Current

A web app to book a court on Paris Tennis website. Work is still in progress but I plan to release the web app by the end of this year.

MAKIWARS

Product, design & development | Jul, 2015

I worked on this project at the end of LeWagon bootcamp. We wanted to build something different and funny so we decided to create this multi-player online game.

BOOOM

Product, design & development | May, 2015

A minesweeper for the 21st century. I did this website while learning jQuery during LeWagon bootcamp.
