

LUKE HOLLOWAY

Designer & Front-end Developer

Chattanooga, Tennessee

I am a multi-disciplinary designer with full-stack agile development experience. I have a collective 5 years experience working with real clients and companies plus 2 internships. My goal as a designer is to provide the best visual solutions for web-based products based on usability study and research.

WORK EXPERIENCE

FREELANCE

Designer & Developer | Jan, 2016 – Current

After completing my last apprenticeship I chose to pursue freelance web projects to better develop my client and customer relationship skills before pursuing a studio-based career. Listed below are a few of my most recent projects...

ROLEMODEL SOFTWARE

Design Apprentice & Front-end Developer | Jun, 2015 – Dec, 2015

At RoleModel I was chosen for a rigid 6-month apprenticeship on the design team. Here I was immersed straight into real-world, agile driven projects. I assisted in multiple web apps as jr. designer and front-end developer. I participated in design sprints, user flow planning, lean canvas design, wireframing, and many other software design exercises. I was tasked with rebuilding and refactoring the whole RoleModel website using Middleman, Slim, BEM, SCSS, JS, and Git. I worked side-by-side daily with agile software craftsmen in a paired programming environment assisting in stylesheet architecture and front-end quality control.

- User Centered Design
- Agile Software Development
- Feature Based Product Design
- UX Design
- Interaction Design
- User Story Mapping
- Usability Testing
- Ruby On Rails
- Lean UX design
- Sketch 3
- Illustrator
- Twitter Bootstrap

PAYMENT OAK

Product Designer | Jan, 2015 – Mar, 2015

I was the lead designer on a web-based product used for billing medical institutions. I was responsible for all wireframing, UX, user research, product design, and minor front-end development. The source files for this work can be provided upon request.

- Product Design
- Wireframing
- UX design
- User Research
- Front-end Development
- Ruby on Rails
- Sketch 3

THY WORD IS TRUE

Designer | Dec, 2013 – Apr, 2014

Here I was part of a 3 man team where I lead design on an iOS app called "Bible Books Game" and I also the design of the Thy Word is True website, helping with front-end development using Twitter Bootstrap and Rails.

- iOS Design
- Visual Design
- Front-end Development
- Twitter Bootstrap
- Adobe PhotoShop

EDUCATION

HIGHSCHOOL

PROJECTS

ATOM EDITOR THEME CALLED TWILIGHT

Sole Creator

Just a personal project made for fun to experiment with electron.js and atom to build a soft, warm, syntax theme for the Atom text editor.
