

ZSOLT NEMETH

Full Stack Web Engineer

Budapest

Enthusiastic, passion driven, multidisciplinary software engineer. Keen on using my skills to solve meaningful problems and giving back to the community. 8 years of professional full stack web development experience. Worked four years in the U.S. (Boston), broadening my skills and mentality with a different mindset.

WORK EXPERIENCE

LOGMEIN

Software Engineer | Jan, 2010 – Jun, 2011

Building LogMeIn Central, a remote desktop administration platform, and #1 revenue generator for the company. Alongside 20 other people in the dev team, had a chance to learn quick and a lot from great minds. Mostly front end tasks.

- Javascript
- ASP.NET
- C#
- HTML / CSS /Jquery

LOGMEIN

Senior Software Engineer | Jun, 2011 – Aug, 2013

Switched products in house, and joined to work on LogMeIn's online collaboration and screen sharing application, 'join.me'. As a senior had a chance to lead the way in technology / library decisions, focusing on performance and maintainability on the front end.

- Javascript
- MVC
- Knockout.js

XIVELY BY LOGMEIN

Senior Software Engineer | Aug, 2013 – Feb, 2017

Moved out to Boston to join a newly acquired IoT startup named Xively. In the growing process I had been able to take part in designing the platform architecture, hiring and building up two teams (~5-6 people each), leading the developing efforts for the web dashboard for connected products, and implementing and maintaining the platform's microservices.

- NodeJs
- Angular
- AWS
- Gitlab
